The CLOSET

A Program of
Family Centered Services, Inc.

Why The Closet Exists

Our mission is to assist families in our community by providing free clothing and necessities for infants and preschool aged children

How does The Closet work?

Any resident of Wells County can use The Closet simply by presenting a utility bill or other piece of mail with their name and address. Some clients come to us through referrals from other Family Centered Services programs and others find out about our program through brochures left at strategic places throughout the community. Many simply come through word-of-mouth recommendations.
